SUMMARY OF EXPERIENCE

Software developer, combining practical coding skills with a design foundation that helps me craft digital experiences, Aiming to apply this blend to long-term, large-scale projects and develop as a **business application developer**.

PROFESSIONAL EXPERIENCE

Tardigrade (Morocco)
Nov 2024 - Jun 2025 - 8 Mos

Trained internally on multiple parts of a software delivery, such as Odoo for the business management, internal software-architecture standards, the .NET ecosystem for software development, 1PMP for marketing, and UX Magic for design, by iterating through mentored agile sprints.

Developed 02Book SaaS, an AI-powered writing assistant for book creation, by implementing a CI/CD delivery pipeline and supporting B2B clients such as Orange and Le Matin.

Rich Media (Morocco)
Dec 2024 - Jan 2025 - 2 Mos

Contributed to the development of a real-time reporting for Inflauditor, an influencer marketplace, by streaming data on 100 000+ creators, enabling partner brands to fast-track campaign decisions

Digital Consulting
July 2024 - Jun 2024 - 5 Mos

Built lead-capture web experiences for luxury brands Miratti (Morocco), French D (Dubai), and Horde Studio (USA), showcased in multiple events like Forbes Middle East.

Cyber Cohesion (Singapore)
May 2023 - July 2024 - 15 Mos

Programmed a **Golang RESTful API** handling the containerization for infrastructure applications with high security controls, enabling role-based isolated instances to launch in 1.2 seconds per user.

Orchestrated a zero-trust CTF-platform by standardizing team practices, hosting global events like OWASP AppSec Days, BSides Singapore, and ISACA.

Jonas Agency (London)
July 2023 - Oct 2024 - 15 Mos

Rolled out an NGINX-based deployment pipeline on a VPS hosting plan, automating new web-service launches from blueprint templates and shortening release cycles.

Built seven full-stack web onboarding flows by partnering closely with an international client across time zones, accelerating new-user activation.

SKILLS

Programming Languages	Javascript/Typescript, PHP, C#, Golang, Python, Bash
Front-end/ Back-end	React/Next.js, Blazor, Express, Bundler: Webpack..., CMS: Wordpress..., Nuxt.js, Pnpm Monorepo, Nginx
Cloud Services	Google Cloud, Azure DevOps, Github Codespace, Vercel, Cloudflare, Heroku
Containerization And CI/CD	Docker, Docker Compose, Git, Github, Github Actions
Database	MongoDB, MySQL, PostgreSQL, Firebase, Redis
Testing Practice	Unit Testing (Jest), Functional Testing (Cypress, Puppeteer), Integration Testing (Supertest)
Artificial Intelligence	OpenAI API, Claude, Cursor, Copilot, DeepSeek, MCP Agents, RAG, LangChain, qDrant, Ollama, n8n
Methodology And Standards	Agile, Scrum, Kanban, Design Pattern, Refactoring, The Standard of Hassan Habib, UX Magic
